Know Your Value

We provide a detailed analysis of comparable sales and a professional assessment of your land's value and improvements.

Your land's true value often goes beyond what's immediately visible. It's in the timber stands, potential access points, water features, and unique characteristics like a meandering creek, established hunting grounds, or picturesque views.

Showcase Your Land

Lidar Mapping: We use cutting-edge Lidar mapping to reveal subtle topography, old roads, and drainage patterns hidden by trees, uncovering your land's value and potential.

Drone Photography: We use drones to capture immersive aerial footage, which showcases mature timber stands and ideal hunting opportunities, giving potential buyers a comprehensive and engaging view of your property from above.

Detailed Video Tours: We produce professional, full-length property videos enhanced with detailed written descriptions, giving potential buyers a true-to-life experience that highlights the unique features of your land.

Strategic Land Marketing

Extensive Online Visibility: Your listing will get maximum exposure across the vast Land.com network, including LandWatch, Lands of America, and Land & Farm. Also key sites like LandHub, LandFlip, my personal site (BuyAlabamaLand.com), and our company's website.

Extensive Social Media Campaign
We promote your property's best features to over 150,000 engaged followers on multiple Facebook, LinkedIn, Instagram, and YouTube channels, reaching buyers who are specifically looking for land.

Direct Emailing Marketing Ads
We email your property information directly to over 2800 active subscribers of major land sites and our network of potential buyers.
